The Missouri Board for Respiratory Care was created in 1996 by an act of the Missouri General Assembly to license and regulate individuals engaged in the practice of respiratory care. The seven-member board is appointed by the governor; confirmed by the Senate; and comprised of four respiratory care practitioners, one physician, one hospital administrator and one public member.

The board is responsible for administering the respiratory care practice act. The board has the authority to investigate complaints and discipline licensees. It is funded by fees collected from the issuance and renewal of licenses.

The State Committee for Social Workers was established with the passage of Senate Bill 246 during the 1997 legislative session. The Committee consists of six licensed clinical social workers and one public member appointed by the governor with the advice and consent of the Senate.

The Committee is responsible for promulgating rules, licensing applicants, responding to consumer complaints, and disciplining the licenses of individuals who violate the practice act. The Committee also determines the requirements for licensure and establishes the ethical standards for clinical social workers.

The Missouri Veterinary Medical Practice Act, revised in 1992, protects the citizens of the state through the examination, licensure and regulation of doctors of veterinary medicine and veterinary technicians. It authorizes the board to respond to consumer complaints, investigate and file formal complaints against licensees who violate the law.

The Missouri Veterinary Medical Board was created in 1904 and consists of five licensed veterinarians, one of whom is the state veterinarian who serves as an *ex officio* member of the board, and one public member. The board is appointed by the governor with the advice and consent of the Senate for terms of four years. No more than three members of the board may belong to the same political party.

The board appoints a Veterinary Technician Examining Committee consisting of two veterinarians, two veterinary technicians and the executive director to administer the examinations for registration in veterinary technology.

The board is a member of the American Association of Veterinary State Boards.

The board is entirely self-sustaining by means of fees derived from issuance of new licenses, registrations and facility permits and the annual renewal of those licenses and permits.
